

Career Fair

at St. John the Evangelist School

Monday, January 29, 2018 from 9:00 – 11:00 am

We welcome parents and community leaders who will volunteer their time to represent their businesses and interact with our students to share information about their chosen profession, education and job responsibilities.

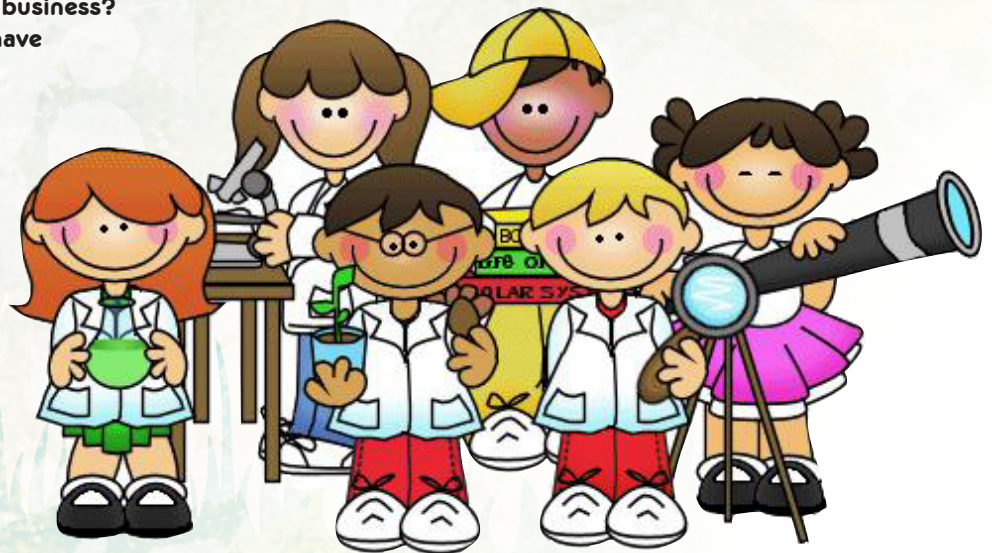

Our goal is to help students consider how they could take a passion and turn it into a career path and be thoughtful and impactful regarding their course selections as they further their education.

- What are the types of jobs/careers available with your business?
- What are the skills necessary to be successful in your business/industry?
- What higher education skills do you look for?
- What are industries related to your business?
- What are expectations businesses have when hiring?

The event will be held in the Gym. Each participant will have a table to set up on. Giveaways are always welcome, but not required and no candy please.

This event is part of the St. John the Evangelist School 2018 Catholic Schools Week celebration. *Thank you for your support!* Parents who are not participating are welcome to attend.
